February Newsletter - Chicago Heights

Director's Desk

Marquita Jackson, Interim Site Director

My name is Marquita Jackson, I am a designated Interim Site Director for Chicago Heights IAFC Early Learning Center. My door is open and you are always welcome to stop by.

We are excited to announce our museum of famous inventors! The children at Chicago Heights are reinventing anything from machines to telephones. Their crafts will be displayed in front of their classrooms from February 4 - 28. On February 28, at 10:15-11:15 am the children will demonstrate and discuss how, who, what and when their inventions were made. Please come out for Family Fun Day and visit the exhibits. There will be food and light refreshments.

Please remember that this is cold and flu season. Please dress your child with the appropriate clothing to keep them warm during this winter season. Remember to provide an extra change of clothing in your child's cubby (sweater, jacket, hat etc.). When the weather permits the children will continue to go outside for gross motor activities. In addition, please remember to contact your Family Engagement Specialist to update your child's physical/dental records. If you have any questions please feel free to stop by or call (708.365.1523).

Parents, you are always welcome to volunteer in the classroom. We have so many wonderful things going on so stop by take a look and give a helping hand.
